

FINAL DECLARATION

We, the 305 delegates representing 28 countries and 108 Friendship Associations, political parties, regional articulations, parliaments, intellectuals, social, youth, feminist and peace organizations, Cuban residents in Europe, NGOs, among others, present at the XIX European Continental Meeting of Solidarity with Cuba, having a long history of solidarity in the face of the imperialist aggressiveness of the U.S.A government against our Cuban brothers, being faithful defenders of just causes and convinced that the voice of Cuba, beacon and guide of all the peoples of the world, can never be silenced:

1. We ratify our unconditional support for the Cuban Revolution and the Cuban people in their legitimate right to exercise their sovereignty and independence in the construction of the socialist social project chosen and supported by the majority of the Cuban people.
2. We will intensify the struggle for the total and unconditional lifting of the unjust policy of economic, financial and commercial blockade that hinders the economic and social development of Cuba and generates shortages and suffering for its people.
3. We reject the inclusion of Cuba in the unjust list of countries sponsors of terrorism, created unilaterally by the United States and whose purpose is none other than to asphyxiate the Cuban economy, limiting the commercial and financial possibilities of the Cuban government with the rest of the world. We recognize that Cuba has been a victim of terrorism since the beginning of the Revolution and at the same time, is a guarantor of peace, recognized worldwide.
4. We will work for the dissemination and use, in all possible spheres, of the verdict issued at the International Tribunal against the Blockade, held in November 2023 at the European Parliament in Brussels, knowing that it represents a valuable legal instrument for our common struggle.
5. We denounce the ruthless media war orchestrated by the mainstream media against the Cuban Revolution, evidenced in the manipulation of information, double standards, the demonization of its leaders, the silence on the social achievements and examples of internationalist solidarity that Cuba offers to the world and the censorship of the actions carried out by the movement of solidarity with Cuba.
6. We will strengthen our material solidarity through the financing and execution of solidarity cooperation projects, the realization of national

- and/or regional campaigns and the sending of donations to contribute to the socioeconomic and territorial development of Cuba.
7. We demand the end of the millionaire financing that year after year the U.S.A Congress approves for programs of political interference, internal subversion and destabilization actions in the Island.
 8. We demand the immediate return to Cuba of the territory illegally occupied by the Guantanamo Naval Base, an enclave that the U.S.A government has been usurping for more than one hundred years against the willingness of the Cuban government and people. It has become a prison and torture center, where detainees are subjected to degrading and cruel treatment, in clear violation of International Humanitarian Law.
 9. We claim the defense of the culture of peace as the foundation of civilization and make a firm call for the conflicts generated in Europe and other regions of the world, as well as the unsustainable situation in the Middle East to be overcome by peaceful means, diplomatic negotiations and the prevalence of international law and respect for the lives of all human beings. Ceasefire NOW!!!!
 10. We urge the European Union to represent the true interests of the peoples of Europe in relation to Cuba and to dissociate itself from the interference policy of the U.S.A administrations against the island; as well as to eliminate the conditions that hinder the normalization of collaborative relations with Cuba, whose basis are contained in the Political Dialogue and Cooperation Agreement signed between the European Union and Cuba.
 11. We reiterate the need to advance in the construction of the anti-imperialist unity of all political forces, social movements and organizations of friendship with Cuba in Europe, in coordination with the world solidarity movement, based on respect for the plurality and diversity that characterizes them.
 12. We commit ourselves to a greater consolidation and coordination of solidarity actions among the different European organizations and with ICAP, as well as to incorporate the new generations and other political and social actors who can raise their voice for Cuba.

13. We reject the advance of the extreme right in Europe, facilitated by the implementation of authoritarian, reactionary, and patriarchal policies that have eliminated social rights and made life precarious for millions of people throughout the region.
14. We will remain faithful to the legacy of Martí, Fidel, Che and other heroes and we will disseminate their thinking and contributions to Cuban sovereignty and socialism.
15. We call for the XX European Meeting of Solidarity with Cuba, to be held in the year 2026 in Turkey, where once again we will trace new routes to continue our battle in defense of Cuba.

With the example of the Cuban Revolution, let us build a broad anti-imperialist unity to resist, create and overcome adversities, the only path that will make our dreams come true to achieve a better world, possible and necessary!

Long Live International Solidarity with the heroic people of Cuba!

Cuba Yes, Blockade No!
